

Minor Modification of 2010 Biosolids General Permit, Subsection 3.5.3

On August 20, 2010, Ecology modified the Public Notice requirements in the 2010 Biosolids General Permit. The modification resulted in a change to **Bullet #1 in Subsection 3.5.3**. The bullet now reads:

- Issue one notice in a newspaper of general circulation in each county covered by a General Land Application Plan you have submitted and each county where you land apply nonexceptional quality biosolids unless this has been done by a beneficial use facility that will be land applying your biosolids. The minimum required content of the notice can be found in [Appendix 1](#).

The following bullet shows the language that was struck from the original language by this modification.

- Issue one notice in a newspaper of general circulation in ~~each county where you prepare biosolids~~, each county covered by a General Land Application Plan you have submitted, and each county where you land apply nonexceptional quality biosolids unless this has been done by a beneficial use facility that will be land applying your biosolids. The minimum required content of the notice can be found in [Appendix 1](#).

Ecology notified all permittees of this modification by letter on August 20, 2010. Permittees were given 30 days to appeal the modification. No appeals were submitted.
